Millwork Consultants Philosophy & "White Glove" Process

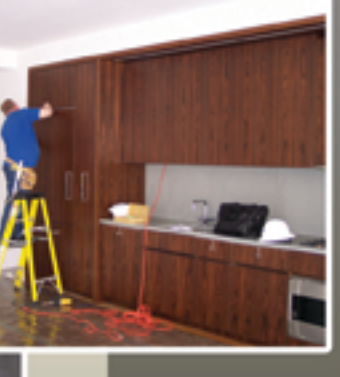

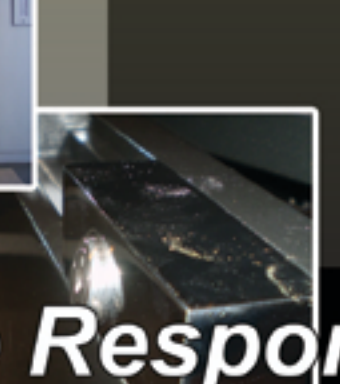

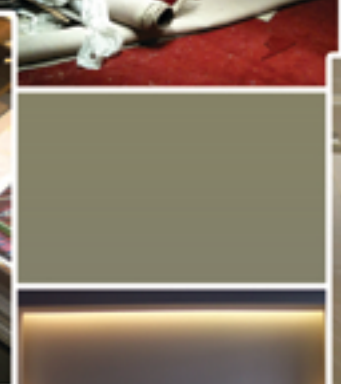

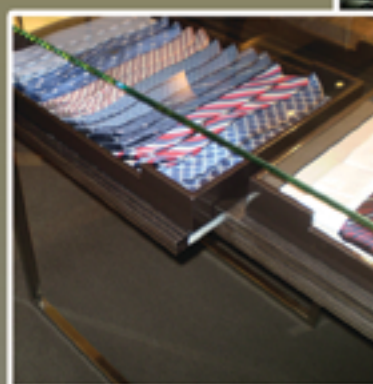

Our mission is to provide constant focus on Quality Control throughout all projects.

Our installation teams and field associates constantly maintain the highest level of craftsmanship, standards, and efficiency, supported by a focused group of dedicated project managers and professionals who keep you informed through every step of your project

With access to a nationwide workforce of several hundred carpenters and technicians, we can mobilize on the fly for many installations and repair and maintenance needs. From retail to commercial projects, store fixtures to decorative millwork, signage and more, we will execute your project in a prompt and professional manner, with direct hands-on attention, no matter how large or small the project.

As an added feature for service calls: We focus locally for each space, assuring in many cases that the same technicians visit the same site. This not only ensures comforting familiarity for client personnel as well as our own, but greatly facilitates prompt and reliable service.

Additionally, should you need assistance with fabrication, we can refer you to and help solicit bids from our vast network of the highest quality Millwork Fabricators across the globe.

Our network of
Carpenters, Painters, Electricians
and Handymen, have the skill set
and experience to work with
various applications and finishes.
